Not Just Marketing For Contractors...

For the past 17 years we have created innovative marketing campaigns for businesses in many different industries and niches. We have the experience and the expertise to quickly get results for any business - online or off - through our proven lead generation system.

Nevertheless, not all businesses or business owners will qualify to work with the DMS team. Below are some of the qualities and requirements we look for in the companies and owners we choose to work with...

DMS Will Not Work For...

If you are one of the following you're probably not a good fit to go through our marketing process and work with our team:

You're a one-man/woman business or operation, you're happy with your current income, and you're not looking to expand your business in the next 12 to 18 months...

You're unwilling or unable to continuously invest at least \$1,000/month into your marketing, on top of your monthly advertising...

You're not coachable or teachable and won't follow directions experts in marketing, lead generation, and SEO...

You're a procrastinator, you don't get things done and you can't make decisions...

You don't pick up the phone every time...

Your work is average or below average, you have a poor reputation locally and/or you don't offer a guarantee of any kind...

You don't understand marketing strategy, that it is a process and may take time to see meaningful results...

You want immediate results without making a significant investment into your monthly advertising...

You make excuses about anything and everything and miss calls from potential clients,

You complain about everything that is not relevant or not important to running your business or your marketing...

If any of these describe you, this is not a good fit for you or us. Instead of trying to make this work, we would be happy to refer you to another agency more to your taste so we can just part company friends.

DMS Is Ideal For...

If you have all or most of the following qualities you're probably an excellent candidate for our proven process:

You are hungry to grow and expand your business two to three times in the next 12 months...

You're able, willing and know in your heart and mind that the only option to achieve your goals and significantly increase revenues, you have to invest in marketing and work with experienced professionals...

You know that by doing so you will get exclusive, five-star leads, help you schedule more qualified appointments and make more sales, create a MASSIVE return on your investment...

You take responsibility for all your actions and follow the suggestions from your marketing team, understanding these strategies will get you bigger results, quicker than trying to figure it out on your own...

You complete projects on time and on budget and you are decisive and confident in your decision-making...

You ALWAYS answer the phone when a potential customer is calling knowing it's another opportunity to increase revenues...

Your work is consistently of the highest quality and your reputation is your word and acts as an iron-clad guarantee...

Marketing is a process and you are willing to make a monthly investment in your advertising to get the results you desire...

You never complain about your circumstances, and focus on doing the right things, all the time, recognizing that when you do, the results take care of themselves...

If this is you, schedule a strategy session now to talk with us about your business, your goals and how we can help you achieve them quickly with the right team behind you. Call Today, **(208) 810-4600!**
